SUBJECT INDEX

- Abbreviations and symbols used in *Journal*, 304
- Adulticides
susceptibility of female *Aedes albopictus*, 251
ULV ground applications, *Anopheles quadrimaculatus*, 606
- Adulticiding methods, *Culex* reduction, 98
- Aedes aegypti*
association with *Aedes bahamensis*, 1
biology and distribution, Madagascar, 219
interspecific mating, *Aedes albopictus*, 416
larvae, household water storage containers, 235
Plagiorchis noblei in, 261
scale pattern variations, 529
suitability, support development of *Dirofilaria immitis*, 377
- Aedes albopictus*
biology and distribution, Madagascar, 219
female, susceptibility to adulticides, 251
interspecific mating, *Aedes aegypti*, 416
Kentucky, 267
larvae, Southern Indiana, 95
ovitrapping program records, 440
potential vector of LaCrosse virus, 422
repellents and other personal protection strategies, 247
suitability, support development of *Dirofilaria immitis*, 377
- Aedes atropalpus*, further extension of range, tire breeding, 110
- Aedes bahamensis*, invasion of South Florida, 1
- Aedes cantator*
infection with *Amblyospora connecticus*, 81
infection with polymorphic microsporidium, 616
- Aedes dorsalis*
DEET effects, 363
ethyl hexanediol against, 374
- Aedes infirmatus*, occurrence in New Jersey, 277
- Aedes mcintoshi*, gynandromorph or, 599
- Aedes sollicitans*, iridescent virus occurrence in, 610
- Aedes taeniorhynchus*
controlled-release DEET, 91
protection against, topical repellents and permethrin-treated clothing, 77
testing *Bacillus thuringiensis israelensis* formulations on, 593
- Aedes triseriatus*
adult, scrap tireyard, 166
ovitrapping program records, 440
- Aedes vexans*, parasitism, 446
mermithid, 106
- Aerosol, penetration, sentinel cage configuration and orientation, 547
- Amblyospora connecticus*, infection of *Aedes cantator* with, 81, 616
- AMCA photographic salon—1989, 448
- Anopheles darlingi*
behavioral responses, DDT residues on house walls, 339
biting and resting behavior, Suriname rainforest, 351
- Anopheles dirus*, eggs, scanning electron microscopy, 563
- Anopheles freeborni*
spatial distributions, experimental rice plots, 254
stripe trait inheritance in, 278
techniques for rearing, 201
- Anopheles quadrimaculatus*
controlled-release DEET, 91
riceland, ULV ground applications, 606
species D, 317
- Aquatic macrophyte cover, survival of *Anopheles* larvae, 579
- Aquatic vegetation, phytotoxic effects of Arosurf MSF, 272
- Arbovirus infection, mosquitoes, mechanical aspirator for safe transfer, 269
- Arosurf MSF, phytotoxic effects, aquatic vegetation, 272
- Asellus forbesi*, *Bacillus thuringiensis israelensis* and, 596
- Association News
Awards, 462
Contributors to the AMCA, 620
Judy Hansen, President, 280
Minutes of 1989 Annual Meeting, 449
Photographs from Annual Meeting, 463
- Attractants, carbon dioxide, 1-octen-3-ol, 311
- Bacillus thuringiensis israelensis*
testing
Aedes taeniorhynchus, 593
Asellus forbesi, 596
- Bioenvironmental control, malaria, India, 514
- Biosystematics, larval movement, 208
- Biting behavior, *Anopheles darlingi*, Suriname rainforest, 351
- Black flies
blood-engorged, identification of source of blood, 541
B.t.i. control of, 397
- Book Reviews
Agricultural Chemicals. Book I, Insecticides, 467
Bangalore Mosquito Control Project Master Plan, 467
Centre for Research in Medical Entomology, Madurai Annual Report 1987–88, 121
Effects of Agricultural Development on Vector-borne Diseases, 626
Etude des Circuits de Vecton d'Arbovirus, a Madagascar, 628
Guidelines for the Ecological Control of Mosquitoes in Nontidal Wetlands of the San Francisco Bay Area, 627
Keys to the Adults, Male Hypopygia, Fourth-instar Larvae and Pupae of the British Mosquitoes (Culicidae), 120
Mosquito Control in Illinois: Recommendations for Prevention and Control, 627
Mosquito Control Research Annual Report 1988, 627
Mosquito Control to Fit Your Town, 120
Natural History of Larval Mosquito Habitats, 284
Pondicherry Project: Demonstration of Control of Bancroftian Filariasis in Pondicherry Urban Agglomeration by Controlling the Vector *Culex quinquefasciatus*, 467
Supplement to the Anophelinae of Africa South of the Sahara (Afrotropical Region), 468
Vector-borne Disease Control in Humans through Rice Agroecosystem Management, 626

Breeding

- artificial-container, scrap tire modification for, 439
- cemetery vase, dengue vectors, 508
- tire
 - adult *Aedes triseriatus*, 166
 - Aedes atropalpus* range, 110
- B.t.i.*, control of black fly, 397

Carbon dioxide

- attraction, Southwestern Ontario mosquito species, 6
- mosquito attractant, 311

Carnivory, *Toxorhynchites*, 359

- Container habitats, larval development in, rotting *Scirpus californicus*, 258

Coquillettidia perturbans

- larvae, sampling, seasonal abundance, and parasitism, 586
- parasitism, two water mite species, 428

Cotton fabric model, screening topical mosquito repellents, 73

- Culex*, seasonal abundance and control, catch basins in Illinois, 537

***Culex erraticus*, host for *Dirofilaria immitis*, 109**

- Culex erythrothorax*, occurrence, southeastern Colorado, 534

***Culex nigripalpus*, insecticide tolerance, 522**

- Culex quinquefasciatus*
 - immature stage, tadpole shrimp predation, 392
 - sublethal dosage of insecticides, 239

Culex univittatus*, viral transmission rates, 70**Culicoides*, Southeastern Nebraska, 42*****Culicoides variipennis***

- different trappings methods, 325
- ingestion of *Onchocerca cervicalis* microfilariae and, 100
- light traps for, 558
- mortality, environmental factors and, 387

Culiseta inornata*, seasonality of, 183**Culiseta particeps*, bionomics of, 434****DDT**

- irritability to, malaria vectors, 56
- residues on house walls, *Anopheles darlingi* behavioral responses, 339

DEET

- against *Aedes dorsalis*, 363
- Anopheles quadrimaculatus*, 91
- Dengue vectors, cemetery vase breeding, 508

Diethyl methylbenzamide. *see* DEET***Dirofilaria immitis***

- Culex erraticus* as a host for, 109
- development, *Aedes albopictus* and *Aedes aegypti* support, 377

Diurnal patterns, *Toxorhynchites theobaldi*, 25***Dugesia tigrina*, mosquito control, 10**

- Duplex, efficacy, *Psorophora columbiae* and *Anopheles quadrimaculatus* larvae, 264

Editorial Acknowledgments, 119**Egg cannibalism, *Toxorhynchites*, 359**

- Emergence traps, varying mosquito emergence effects, 104

Erratum for Table 1 on page 255, 324

- Ethyl hexanediol, against *Aedes dorsalis*, 374

- Floodwater, larval development in, new insect growth regulator effects, 15

Gambusia affinis

- sample, minnow traps in, 29
- spatial distributions, experimental rice plots, 254
- Green sunfish, sample, minnow traps in, 29

Host-seeking behavior, 487

- Impoundment, larval development in, new insect growth regulator effects, 15

Impregnated materials, mosquito nets, 500

- Infrared photography, *Psorophora columbiae* oviposition habitats, 147, 369

- Insect growth regulator, larval development and, impoundment and floodwater habitats, 15

Insecticides

- tolerance, *Culex nigripalpus*, 522
- sublethal dosages, *Culex quinquefasciatus*, 239
- Intertidal mangrove community, fate and toxicity of temephos, 569

Iridescent virus, *Aedes sollicitans*, 610

- LaCrosse virus, potential vector of, *Aedes albopictus*, 422

Larvae

- Aedes aegypti*, household water storage containers, 235

***Aedes albopictus*, Southern Indiana, 95**

- Anopheles*, aquatic macrophyte cover effects, 579
- development

- container habitats, 258
- new insect growth regulator effects, 15

movement, biosystematics of, 208

- precise injection, semi-micro manipulator for, 601
- sampling, seasonal abundance, and parasitism, larval *Coquillettidia perturbans*, 586

Simuliidae, microsporidia in, Argentina, 64

- susceptibility tests, computer program for, 275

Toxorhynchitesamboinensis*, killing behavior, 444*Larviciding methods, *Culex* reduction, 98****Letters to the editor, 616, 618**

- Lepomis cyanellus*, sample, minnow traps in, 29

Light traps, *Culicoides variipennis*, 325, 558

- Literature references for mosquitoes and mosquito-borne diseases

Agencies, 480**Anatomy and morphology, 125, 291, 471, 627****Bacteria, 128****Bacterial control agents, 293, 474, 629****Behavior, 126, 291, 471, 627****Biochemistry, 126, 291, 471, 627****Biological control, 128, 473, 629****Biology, 127, 291, 472****Books, booklets and reports, 145, 303, 483, 644****Brugia, 140, 300, 480, 641****Bunyaviruses, 132, 296, 476, 634****Bunyaviruses—Rift valley fever, 132, 296, 476, 635****Control, 141, 301, 480, 642****Cultural control, 481, 642****Cytology, 127, 292, 473, 628*****Dirofilaria*, 141, 300, 480, 641****Distribution, 144, 303, 483, 644****Ecology, 127, 292, 473, 628**

 Trager, L. W., Jr., 123
 1-Octen-3-ol, mosquito attractant, 311
Onchocerca cervicalis, microfilariae, bloodmeal size estimates and, 100
 Organophosphate detoxifying esterases, detection of, *Culex* mosquitoes, 196
- Oviposition
 habitats
 Psorophora columbiae, 369
 Psorophora columbiae, infrared photography, 147
 Toxorhynchites theobaldi, 25
- Parasitism
 Aedes vexans, 446
 Coquillettida perturbans, two water mite species, 428
 larval *Coquillettida perturbans*, 586
- Permethrin
 clothing treated with
 Aedes taeniorhynchus, 77
 weathering of, 176
 residual activity, mosquito bioassays, 60
 Pesticide agitation system, electrically controlled, 432
Plagiorchis noblei, in *Aedes aegypti*, 261
 Polystyrene beads, expanded, mosquito control, 614
 Presidential address, 307
 Protein, content, wing length and, 180
Psorophora columbiae, infrared photography, 147
- Repellents
 Aedes albopictus, 247
 controlled release
 Anopheles quadrimaculatus and *Aedes taeniorhynchus*, 91
 evaluation on human volunteers, 52
 evaporation, skin penetration and, 45
 testing, laboratory test cage for, 436
 topical
 controlled-release, *Aedes taeniorhynchus*, 77
 cotton fabric model for, 73

- Resting behavior, *Anopheles darlingi*, Suriname rain-forest, 351
- River valley fever virus vectors, sustained-release formulation of methoprene, 603
- Runnelling method, salt marsh mosquito management, 226
- Salt marsh management, runnelling method, 226
- Scale pattern variations, *Aedes aegypti*, 529
- Scanning electron microscopy, *Anopheles dirus* eggs, 563
- Scientific names, usage and abbreviations, 305, 485
- Scirpus californicus*, rotting, larval development in container habitats, 258
- Seasonality
Culex, catch basins in Illinois, 537
Culiseta inornata, 183
- Self-marking device, emergent adult mosquito, 86
- Sentinel cage configuration, aerosol penetration, 547
- Sodium chloride, juvenile exposure effects, snow-melt *Aedes*, 606
- Sodium hypochlorite, detection of aedine mosquito eggs, 612
- Species D, *Anopheles quadrimaculatus*, 317
- St. Louis encephalitis virus, surveillance, 161
- Tabanid, gonotrophic status, sperm presence and sugar feeding patterns, 383
- Temephos, fate and toxicity, intertidal mangrove community, 569
- Toxorhynchites*, egg cannibalism, carnivory and, 359
- Toxorhynchites amboinensis*, larvae, killing behavior, 444
- Toxorhynchites splendens*, larvae, control of *Aedes aegypti* in household water storage containers, 235
- Toxorhynchites theobaldi*, behavior of oviposition, diurnal patterns of, 25
- Triops longicaudatus*, prey-size selection, immature stages of *Culex quinquefasciatus*, 392
- ULV spray droplets, caged adult mosquitoes, 173
- Vectobac, efficacy, *Psorophora columbiae* and *Anopheles quadrimaculatus* larvae, 264
- Viral transmission rates, *Culex univittatus*, 70
- Wing, length, protein content correlation, 180
