

Dr. Headlee is rather like turkey without cranberry sauce - it may be good but it just lacks a certain flavor. I know we were all keenly disappointed that he could not be with us and we rejoice that his disability was only temporary.

The ride back to the city in the dusk was pleasantly cool and a little before eight o'clock the caravan drew up to the Pennsylvania Railroad Terminal where a boat was waiting to start back to Cape Charles and the train for New York.

And so ended a full day for us all but one which I only hope our visitors enjoyed half as much as I did and may be willing to repeat some time in the future.

ACTIVITIES IN MEMBER STATES

R. E. Dorer,
 Asst. State Director,
 U. S. Public Health Service,
 Norfolk, Virginia.

Sorry that I have not had time to prepare an article
 for the "Mosquito News". However, I am enclosing several
 clippings which might be used for the article. Also it
 might be recorded that in Virginia we have had a record
