CARLYLE NIBLEY, JR.

"It is with a heavy heart that we report the death of Maj. Carlyle Nibley, Jr., in an auto accident on 18 May. Nibs was returning home on Highway 1's "killer strip" late at night from College Park, where he has been taking graduate work at the University of Maryland, as was reported in the December issue.

"From the moment that he arrived in Korea as part of the Preventive Medicine Company, at the commencement of the Korean War, Nibs began making an impact on all who worked with him, by his energy, his quick mind and his warm personality. This impact increased with the years and it will be with a real sense

that something is gone from their lives that those who knew him will realize that they will not again feel that warmth and energy. The loss of his entomological ability and experience will be greatly felt in the program of military entomology.

"Nibs is survived by his wife and their three teen age children, by two brothers, Dr. Reed Nibley of Vienna, Virginia, and Capt. Owen Nibley of the Air Force Academy, by a sister, Miss Jeremy Hardy and by his mother, Mrs. Karl J. Hardy both of Washington, D.C."

(Sent in by Dr. Bickley, through Mr. Morrill.)
