### JOINT ANNUAL MEETING OF THE NEW JERSEY MOSQUITO EXTERMINATION ASSOCIATION (50TH ANNIVERSARY OF THE ASSOCIATION) AND THE AMERICAN MOSQUITO CONTROL ASSOCIATION (19TH ANNUAL MEETING)

HOTEL HADDON HALL, ATLANTIC CITY, NEW JERSEY  
March 12-15, 1963

This joint annual meeting is expected to be one of the largest and most comprehensive in the history of mosquito control activities in America.

All committees are making great strides in developing an outstanding program and an educational and pleasant visit to Atlantic City in the State of New Jersey. The program will include an historical account of research and control of mosquitoes, public health relationships, latest developments in the biology and control of mosquitoes, as well as important contributions on policies, managerial procedures and public relations; also, safety measures from the standpoint of employees in mosquito control, relationship of various types of mosquito control to wildlife conservation, marine organisms, and related topics. All papers presented at the meeting will be published in the annual Proceedings of the New Jersey Mosquito Extermination Association and copies will be dis-

tributed to all members of the AMCA. If you are presenting a paper please have your manuscript complete and cleared for publication at the time of the meeting. There will also be educational and commercial exhibits and an outdoor demonstration of equipment and control practices.

The committee on entertainment is making great plans for the ladies. Several tours are being planned, especially for the ladies in and around Atlantic City. Social and hospitality hours are being arranged for everyone, and arrangements are being made for anyone interested in mosquito control operations in New Jersey to visit the operations of the various county mosquito extermination commissions.

Complete programs will be distributed well in advance of the meeting.

No one concerned with mosquito research and control can afford to miss
