**EDITOR'S CORNER**

Organization of the program for the annual AMCA meeting in 1991 at the Clarion Hotel in New Orleans, March 17-21 is now in progress under the supervision of Vice President Cy Lesser.

Of special interest to readers of this journal will be the Mosquito Systematics Symposium.

At this year's meeting in Lexington a record number of 17 papers were scheduled. We hope

to do even better in 1991. Anyone planning to attend the meeting who would like to participate in this symposium should contact the Editor or Dr. Richard Wilkerson, Walter Reed Biosystematics Unit, Museum Support Center, Smithsonian Institution, Washington, DC, 20560, and provide a title with names of authors and sponsoring organization. Deadline for submitting titles is November 1, 1990.
