Lisboa (1891), Cooke (1908), and Blatter & McCann (1935) described the grasses of the Bombay Presidency. Santapau (1950, 1953, and 1957) enumerated the grasses from Saurashtra, Khandala, and Purandhar. We add the following grasses which are recorded for the first time for Bombay State. The herbarium specimens referred to herein, with the collectors' names and numbers, are deposited in Blatter Herbarium, St. Xavier's College, Bombay.

The authors are deeply grateful to Dr. N. L. Bor, Kew Gardens, England, for their identification.
