

A NEW COMBINATION IN *STENOTUS* (ASTERACEAE)

Caleb A. Morse

R.L. McGregor Herbarium
University of Kansas Campus West
2045 Constant Avenue
Lawrence, Kansas 66047, U.S.A.

A new combination is necessitated by the forthcoming treatment of the genus *Stenotus* Nutt. (Asteraceae) for the *Flora of North America*.

The combination *Stenotus lanuginosus* (A. Gray) Greene var. *andersonii* (Rydb.) was attributed to H.M. Hall by Kartesz (1994a, 1994b), and has been perpetuated in other publications (International Plant Names Index 2004; USDA, NRCS 2004). However, Hall's combinations were published as subspecies in the genus *Haplopappus* Cass., not varieties in *Stenotus*. Recent treatments, including the one prepared by the present author for a forthcoming volume of the *Flora of North America* project, have regarded North American sections of *Haplopappus* sensu Hall as distinct genera. Therefore, a new combination for this well-marked taxon is necessitated.

Stenotus lanuginosus (A. Gray) Greene var. ***andersonii*** (Rydb.) C.A. Morse, comb. nov. *Stenotus andersonii* Rydb., Bull. Torrey Bot. Club 27:615. 1900. *Aplopappus andersonii* Blank., Montana Coll. Agric. Sci. Stud., Bot. 1:100. 1905. *Haplopappus lanuginosus* ssp. *andersonii* H.M. Hall, Publ. Carnegie Inst. Wash. 389:172. 1928. *Haplopappus lanuginosus* var. *andersonii* Cronquist, Univ. Wash. Publ. Biol. 17(5):219. 1955. TYPE: U.S.A. MONTANA: Belt Mountains, 1886, Anderson 3561 (HOLOTYPE: NY, UC [fragment])

Tonestus linearis A. Nelson & J.E. Macbr., Bot. Gaz. 56:478. 1913. TYPE: U.S.A. IDAHO: Payette National Forest, 1912, G.B. Mains J.V.-6 (HOLOTYPE: RM!; ISOTYPE: RM!).

ACKNOWLEDGMENT

I thank Kanchi Gandhi for discussion of this issue.
