

CHECK-LIST OF PSYCHODIDÆ OF SOUTH AND CENTRAL AMERICA¹

BY WILLIAM F. RAPP, JR.

This check-list, which has been compiled after a careful study of the entomological literature, includes all species described up to December 31, 1943. It covers Central America south of the United States, all of South America and the West Indies. Based upon zoögeographical division, this area would be considered the Neotropical Realm.

At least 49
spp. omitted

I wish to thank Miss Janet L. Cooper for the help she has given me in the preparation of this paper.
