Arboreta and Botanic Gardens in the United States. The location of individual arboreta and botanic gardens in the United States has so often been a problem for research in the Arnold Arboretum Library that it has seemed quite probable the general reader might value the collection of scattered material into a general list to guide him to the specialized plant communities in his locality. For this study a botanic garden has been defined as an establishment where plants are grown for the purpose of furthering botanical ends, either economic, scientific or aesthetic. The following list includes the arboreta and botanic gardens established through private enterprise for public benefit, those connected with universities, schools, churches and commercial concerns, some of the larger agricultural experiment stations that have or plan to have generous plantings of species of woody or herbaceous plants, the plant collections in public parks where there has been some attempt to classify the indigenous flora or established various genera, as well as those arboreta which are privately owned, some of which are accessible to the public through the generosity of the owners. Space prohibits the citation of our national parks but their value is already so well known they need no recommendation here. This list has been compiled from a more or less limited examination of the literature in this one institution and is therefore by no means exhaustive, it may also include a few plantings unworthy of inclusion, but it will serve as a nucleus for a more complete list in the future. Cooperation is solicited from all who can supplement this list with further data.

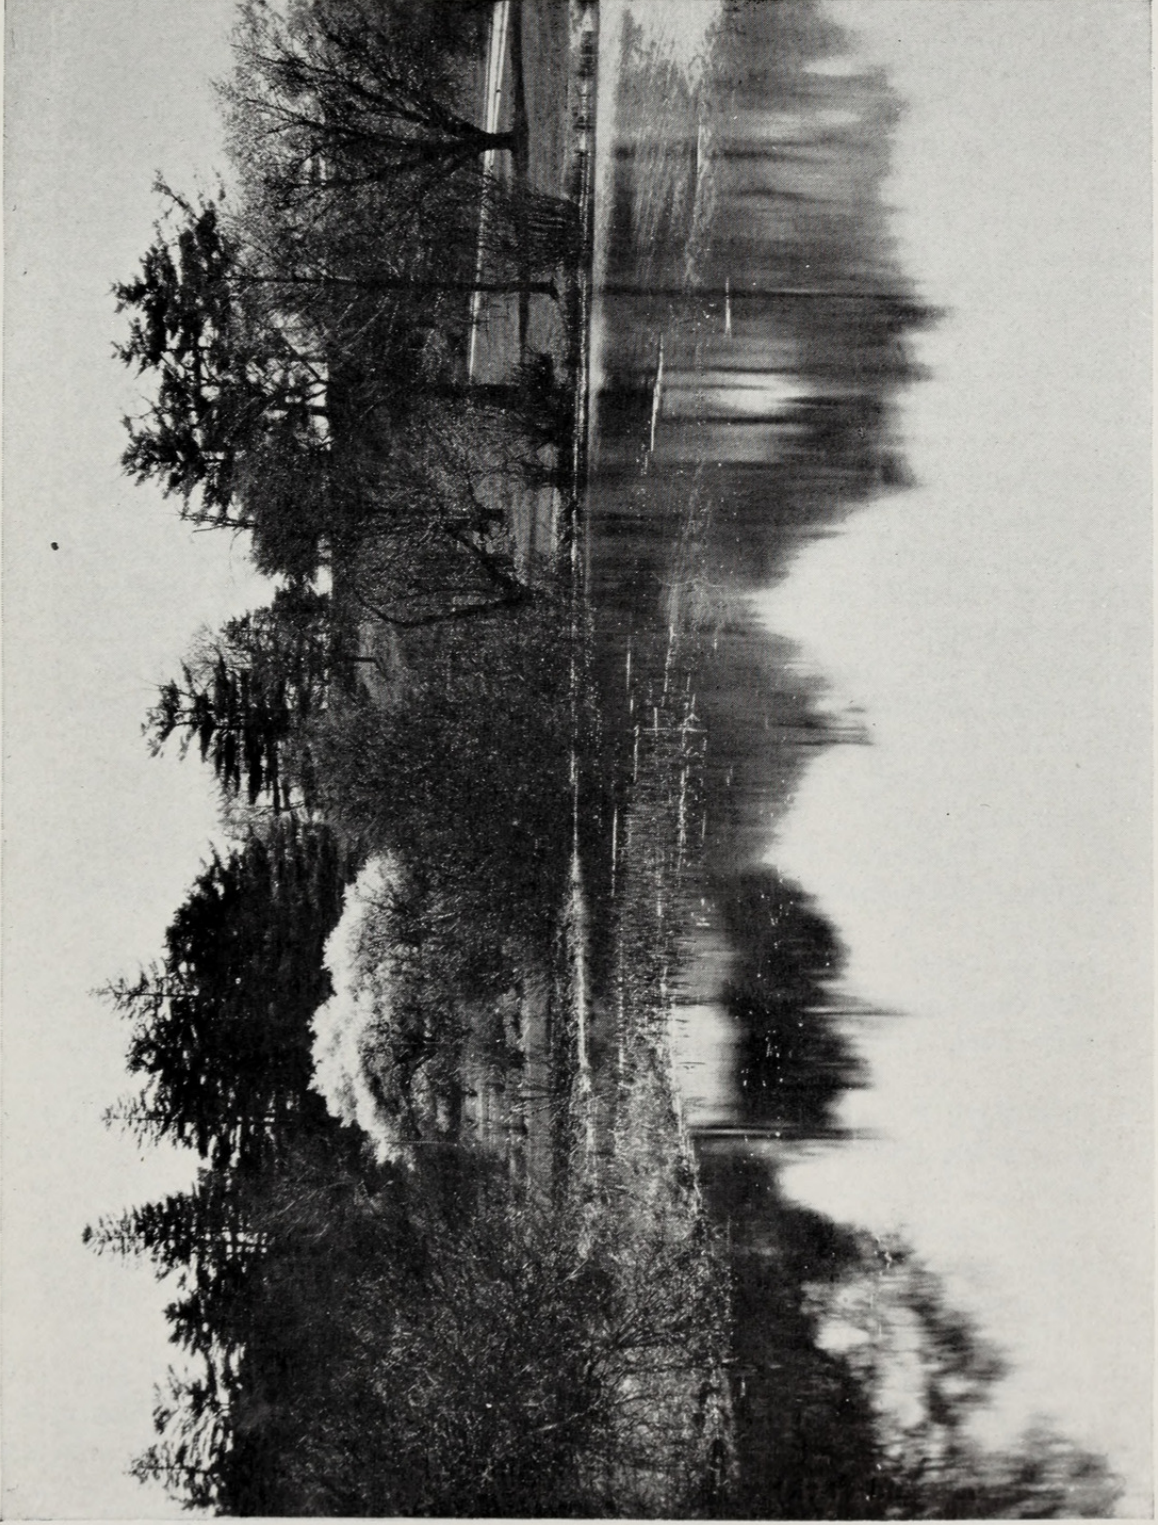

ARIZONA	LOCATION	DIRECTOR
Boyce Thompson Southwestern Arboretum	Superior	Franklin J. Crider
Desert Laboratory	Tucson	D. T. MacDougal
ARKANSAS		
Arkansas Agricultural Experiment Station, University of Arkansas	Fayetteville	J. R. Cooper

CALIFORNIA	LOCATION	DIRECTOR
Albert White Park	Riverside	
Balboa Park	San Diego	
Bard Botanical Gardens	Hueneme	
Blaksley Botanic Garden	Santa Barbara	Elmer J. Bissell
Golden Gate Park	San Francisco	John McLaren, Supt.
Huntington Botanic Gardens	San Marino	William Hertrich
Mission Cliff Gardens	San Diego	John Davidson, Supt.
Montariso Botanic Garden	Santa Barbara	
Pacific Botanic Garden, Stanford University	Palo Alto	
Rancho Santa Ana Botanic Garden	Anaheim	Susanna B. Bryant, Owner
