

accumulating, which will con-
tain some good things: *Gardenia*
Heuberica, some of the *Ranunc Indigofera*,
Senecio acutifolius, and a good series
of the *Vanstadensberg* Flora, from the
range rendered classic by Gayler's frequent
explorations.

I have been endeavoring, with Dr
Hooker's kind help, to induce our
Govt to remove the Government Herbarium
to our Grahamstown Museum &
permit me to act as its Curator
with the view of ultimately accumu-
lating material for a continuation
of our Flora. However, territorial
squabbles between the West & Eastern
Provinces have stood in the way,
& this large Coll.ⁿ lies & is to lie
unworked, in custody of a gardener.

I send this note direct, recent alterations
in our Postal Service permitting it
to be paid through, and remain

Most faithfully yours
Peter Macbride
