

Redfield

Phil'a July 27, 1880

My dear Dr. Gray

I am always reluctant to intrude upon your time - by sending plants for determination - and do it only when they are plants which I think you ought to see.

Our good friend Branderup has recently sent me some alpines - from high up in the Sawatch range. The Habas seem to me peculiar and I cannot place them - & there are one or two other questionable things - so I just send the whole lot as received.

Of course you will keep whatever you desire.

Your card was received yesterday. On many accounts I should be very glad to attend the Aug. meeting of the Am. Assoc., but I do not think it will be practicable, and shall probably have to deny myself the pleasure of a personal adieu - but when you go - you will

Redfield, John Howard. 1880. "Redfield, John H. July 27, 1880." *Asa Gray correspondence*
