

San Francisco  
July 7,

Dear Dr. Gray, -

upon your suggestion  
sent a note to Curran  
yesterday asking that  
the specific name of  
*Campanula* to ex  
case the description  
already in print. &  
this note posted w.  
Curran called with  
specimens (here enclosed)  
found on Mt. Tamalpais  
ten miles from the city  
(Co.) She says some of  
specimens are eight in  
the few remaining flowers  
and super-colored

Rattan, Volney. 1886. "Rattan, Volney July 7, 1886 [fragment]." *Asa Gray correspondence*
