

Department of Agriculture,

Washington, D. C., June 24th, 1880.

Prof Asa Gray
My dear Sir

Your letter is received, & also
the box of grasses. I have looked them over hastily
and find that although many are unnamed, yet by
bringing the families together I think 75 per cent can
be readily named; some sets are pretty fully named, and
will name others. I will bring them together, number
them, name such as are clear, and distribute them
according to your suggestions; Will send you a full
list as soon as I can prepare it.

I think we had better use the labels giving location,
if you have enough of them. Probably ^{or 60} sheets
would be enough - I enclose stamps for postage.
Mr. Muham, Prof Porter, Dr. Leidy & others were here yesterday
on their way to the Mt. of N. Carolina.

Mr E Hall wrote me some time ago that he was going to spend
a few weeks there.

Yours truly
Geo. Vasey
