Prof. Scudder Watson Boston.

Dear Doctor:

For the purpose of comparative study I am anxious to secure a few fair specimens of that dwarf Potentilla of the White Mts N.H. which Wood defines as *P. minima* Haller and Gray as *P. frigida* Willd.

As I happen to have representatives of both species from the Herbarium of the eminent Swiss Botanist Mr Heus Siegfried (who by the way is an Expert on Potentillas cultiva - ting about 300 forms in his Potentillarium from all parts of the globe) - I am very eager to see the American Plant, forming myself an opinion about it and send a specimen to my friend too.

I addressed in this matter several New Hampshire gentlemen but couldn't receive any reply although I am willing to pay for it. Hence I take the liberty to

would you know, that the
Herbarium over which you preside con-
tains undoubtedly a few duplicate -
specimens which you can spare.
If not, you may direct me to some
source where I can get them and
any favor you may deem fit to
render me will be warmly appre-
ciated by

Your obedient servant
A. Ziegler

Ziegler, A. 1890. "Ziegler, A. Oct. 22, 1890 [to S. Watson]." *Asa Gray correspondence*
