

parted. — S. I did not get  
the *P. Damescii* last year  
Is it near *P. glaucus*. Try &  
get *P. glaucus* in cultivation  
It is splendid, and I think  
the seed is good.—

My Dear Dr Gray

Rec'd yours of  
19<sup>th</sup> & 20<sup>th</sup> inst. also the parcel  
of Pl. R. 30 no. Thanks for  
the names sent, would like  
the names of the sp *Lignosyzis*  
& bes. des. *L. viscid. flora.* weij  
2 from Middle Park. one with  
long leafy spike from Empire Col.  
& one from the plains.

I think it would be well  
to have a miscellaneous set  
of the more choice plants  
with you to select for Hooker  
and others. Don't know what  
Hall may think of it. He  
ought object to my doing it  
as contrary to our agreement  
by which I am bound not to

sell any overplus in my  
hands for a year -

I am glad you are going to  
take hold of the Astrogalis  
you will find Hall's collection  
rich in flowering specimens

Not a word from Engelmann  
the last two weeks I sent  
him your notes on Comp.

Nothing yet from Hall, I  
expect he finds his bulky  
collection quite a job to  
unravel I hope to get this  
week from him my set of  
plants so as to know what  
to send to complete the set

A letter has gone to Pikes Peak  
for that "Pond Lily" expect to get  
a capsule this winter -

I think I should prefer  
to sell the rest of my pure  
seeds in this country where  
they would be more of a

novelty If the Rochester  
men will take them at a  
fair price I will send them  
the whole stock. the main bulk  
is S. Mungosii well adapted  
to that locality

Has Hall written you about  
seeds? he was collecting quite  
largely but in small quantities  
each species. he left too  
early for fine seeds

I send a sketch Carex.  
sent me by a correspondent  
from across the range too  
little to make much of —  
I have among L. copies of  
supplement. — Engelmann  
sent me a parcel. If you  
can send me 12-15 copies  
of revision Peutschneri please  
do so. I hope you will get  
Hall's in time. several nice  
ones in the collection before we
