

that I should refuse without good
reasons. I will wait your advice
on the matter before answering his
letter. I do not know what your
personal arrangement are together but
could you not conveniently take a part
of the last £50. for your trouble?
at least I shall insist on paying
express charges to Cambridge
You will of course write me
plainly on this matter and I shall
cheerfully abide your decision.
please retain funds now on hand till
the matter is definitely settled
The labels came during my absence
I have not seen the parcel yet being
detained in some post office says.
They were badly torn up in the
mail (consequence of fire damage?).
I hope now to finish putting up
set in 2 weeks. let me know
what you will specially want.

Fay Huf

C C Parry

Davenport & Dowee

Nov 29th 1872

My Dear Dr Parry

I just get
back from my trip in time
for Thanksgiving. I had a rough
cold drive in the interior of
Kansas. but accomplished the
object of my journey very
satisfactorily finding valuable
deposits of coal & salt. the
result is that. I shall have
a longer engagement next
spring when I can also do up
some botanizing and later in the
season go to the mountains wherever
seems most desirable. On my
way back I went to St Louis
staid over a day with Dr Engelmann
he was very busy with practice

but we made out to go over
the Conifers, Asclepiadaceae &
Yucca &c and compare notes
& facts, will write more fully
another time. While there came
a short letter from you. in
reference to your proposed resignation
of Professorship, less by you. &c. I
have been anxious to hear in
regard to the latter point. am
glad it is no worse than you
represent. About half of Sagittaria
I had quite a little notes in
my book of Iowa & Minnesota plants
in Appendix Iowa's Geol Survey. 1848

I am getting orders for alpine etc
much beyond my expectation. I
must try to keep back a few for
foreign distribution. but I might
to have made so many as 20 sets.
I shall go at New distribution
at once, will have some material

for you to examine & settle on
I feel quite satisfied from some
examinations that the discord
Arnica of the Rocky Mt. is quite
a distinct thing and should be
characterized. I will send full
material for comparison. The
new flora of Producta Angel was
in a very good no. sp. & I will
publish in St Louis Transactions

Now comes a letter from Mr
Backhouse. which I enclose
He seems not dissatisfied with
the results and proposes to pay
me the full amount asked £150,-
in my last letter to you on the
strength of your criticism. I
feel inclined to reduce my charges
and am still willing to hold to
the proposition then made of through
best. At the same time if
Mr B. is willing & feels justified
in paying more. I do not think
