

Davenport Feb 7th 1874

My Dear Dr Gray

Here is Engelmann's
paper on Isoetes, including the
far west species. I suppose the
may as well all go in to the
appendix. especially if we make
a separate article. Correct your
No 307 to correspond, also add
name (in proof) to my article.

In case you decide to postpone
appending. please let me know at
once, so that it can be made
as complete as possible.

I don't know whether Gray will
give his ined description of
Carex Fennensis (No 284).

I asked him to do it.

Green off for California!

Yours C C Parry
