

Davenport Aug 13th 1774

My Dear Dr Gray

By giving up all my time to the job. I have my collection ~~all~~ sorted up and numbered. and a full set up to 263. sent you by express.

I have your parcel enclosed in the box with Backhouse's seeds & sent send herewith the list to be forwarded to Backhouse. You can run over the list & see what you may want to take out of the seed parcels. & then send me to Backhouse. sending the letter by mail. Your set of plants will open in regular order from 1 to 263. but you will need to look close for the printed number on slips. (Letter too small) I keep a rough mem list made in my handwriting. We will need about 4 - 5000 labels in the usual style headed {Flora of Southern Utah}, &c. I shall have about 20 sets to dispose of numbering something over 2000 sp. which will include all the choice & desirable things in taking order. also include 12 Wyoming sets at uniform price \$10. per C.

I should perhaps ask you, in view of
unusual expense, but I only want to save
myself. I have now less than 4 sets of my
Tan herb, Mr. C. C. Parry. Redfield, & C. L. Eaton
of the best. May's I may have several over
the regular sets.

I expect to start for Colorado 17th and
will direct to Empire to join
Engelmann. Write me then for any special
information in reference to the plants
I suppose it will be as well to write up
another popular account for Naturalists, and
as soon as you can send me the list I
can commence so as to get it out promptly
including descriptions as before in appendix
would like Watson to go carefully over
the Omnithes which include some doubtful
forms. The Chenopodis (not collected largely)
I suppose he can name at once
I will write about seeds & plant for
Saunders, from Colorado, but think my
engagement with Mr. Rock has well
not allow me to do much.

Yours

C. C. Parry
