

Davenport Iowa

Feby 11th 1875-

My dear Dr Gray

I send you by mail

parcel a numbered lot of my Mex Bdy
Phaceliae. as far as I have them.
They are mostly from my trip through
N. & E. Arizona in the Spring of 1852.
The accompanying tickets will
show date & locality. Please name
as far as you can.

I want to go through filia also.
I have a lot of blunders with
no. but no list to refer to
- I am quite out of patience with
the Naturalist folks for delay in
printing - too much zoology, &c.
Surely there should be a botanist
near. competent to correct such
blunders as in Palmer's notices!!!
in Zyg No.

Sorry to hear that Washington
disagreed with you. Better drop
work & join me at foot of Mt Nebo
next summer.

I expect to start for the East
next month, return in May &
then leave for Utah.

Engelmann is quiet lately I have
asked him to look at Claytonia
I am not satisfied to call
N. 23 & 24 C. perfoliata var.

Yours

C.C. Parry
