

the Lower Colorado. & I do
I found the Iron Herb in a
very unsatisfactory condition, no
conveniences for study, and I
was there three times on rainy
days, to find it locked up.
Le Roy not there!

There is some little discrepancy
in my list as I noted when at
Eaton's No 137, noted as Malacothrix
Torreyi, answers better to M-
Californica, and I find nothing answering
to M. Torreyi? In Iron Herb is a
specimen of Phacelia pulchella, under
the miss' name of P. (canthus) Palmeri!!!
I wish you had quoted my number,
in your Hypolepis paper
Siler writes that he has sent me at
Davencourt 100 sp. of Shepherdia rotundifolia
in good flowering and when he will
also make good specimen of
Riophyllum & send roots & slips
to Mr Sargent.

Yours C.C. Parry

This was given my by Father expect
New Haven.

May 1. 1875

Dear Dr. Gray

Dr Parry is here
today, and expects to
see you on Wednesday.
Will not you and Mrs
Gray stop over at least
a night with us on your
way to Cambridge?

My wife is gone out
this afternoon or she
would send a special
message to Mrs. Gray.

I have nothing of very
special interest botanically
to tempt you with, but
I would be greatly pleased
to have you stop with
us.

Our neighbors the Hoppers,
too, will be particularly
delighted to meet you
both.

With warmest regard

Ever yours

Daniel C. Eaton

Sandy Hill N.Y.
May 10th 1875.

Dear Dr Gray

When I saw by your
card that you would only have
a spare half hour in N.Y. I concluded
not worth while to break up another
engagement to see you. I have
since seen Thaxter who gave
your message. We may possibly
accept your kind invitation &
make a short visit at Cambridge,
but not before letter part of the
month before returning west.
From this place we go to Westford,
Conn. to visit Mr P. relatives
where you can address me after
this week. My present plans are
not materially changed. To out in
June to the Wahsatch range in
Utah. Then in the fall to St George
to winter. Early next spring to
