

Davenport Iowa
Sept 24th 1876

Dear Dr Gray

You made a shorter
trip than I expected

I enclose specimens of tickets
for the whole collection. with the
No desired. Those for Palmer
will be wanted ~~for~~ and had
better be kept till he comes on
(week after next) his sets are
more than half made up, will
finish next week and then go
on to Cambridge. He will take with
him at least one full set to be
named from and incorporate such as
you may want for herb. No word
yet from the missing Arizona box

I shall be rather slow getting
at the Deselution. so many
things to distract my attention
Mr P. says we must go to
Centennial. but I am better to
join the weary crowd and shall
try & back out.

Lemmon is poorly, not able
to collect I fear he may break
down entirely. I can use his
surplus to advantage as his
collection is very irregular
he is to send it on in October
and tickets as soon as done
including all other matter by
Express. Charge all to me
(except Palomers) and make out
bill of everything for me to settle
(Backhouse wants to buy a
copy of Bib. Cal. can you direct
him how to get it & where

When I get at the plants shall
be writing often thanks to Watson
for late list

Young Putnam was much
pleased with your letter. expects
to start for Centennial next week
will probably go to see you at
Cambridge

Yours
C. C. Parry
