

Davenport Feb 8<sup>th</sup> 1877

My Dear Dr Gray

Yours of yesterday  
Received. I enclose Postal order for  
\$5.00 towards expences.

I also send Miscellaneous  
parcel with fac simililes of our  
late archaeological find, and  
a recent photograph. In the  
paper for Saugatuck I slip in a  
print specimen of Echinus sp.  
Lemmer 205. L. called my  
attention to it said you wanted  
print. It seems quite distinct  
from any other western sp.

I still think the Wash & Wyoming  
specimens refer to L. deflexum  
as distinct but have not the  
material handy to prove it.

Duncan Putnam among other  
complications has had an attack  
of ergotism in one of his physical  
limbs. is better & lively but  
his condition is exceedingly  
precarious.

I have had quite a  
severe attack of renal calculus!  
getting over it now.

I do not see how you can escape  
that "treadmill" as long as you  
have the only complete herbarium  
and keep good natured. If you  
only had someone reliable to attend  
to that matter, & charge a fee  
but such a person would be fit  
for something better

Yours

C. C. Parry
