

Davenport April 3<sup>d</sup> 1879

Dear Dr Gray

Here is reference to  
Herb. Case paper, and a loose cut,  
I have made no modification: though I  
I have in view an idea to make the  
3<sup>d</sup> upright case open by a single door  
from above down, with a slot when horizontal  
to use as Table (see rough sketch)  
The real important point is the bevelled  
edges to the doors going away with sharp corners  
and allowing cases to stand close together,  
I would also prefer a strap hinge on inside  
to make stronger -

I am still wading through Mexican plants.  
Palmer last parcel was in miserable  
condition much of it worthless. very few  
desirable things. but I had to go through  
it to pick out. I was glad to get

foliage of the Hickory which can hardly  
be any S. U. S. sp.

I have now finally packed a box for  
Kew containing balance of set house  
added for Museum some odd things  
fish, fruits &c &c

Next week I shall be through distribution  
I will send off sets to subscribers  
These will go as fast freight. They  
will be arranged in convenient  
bundles marked on outside so that  
you can get at special orders without  
going through the whole pile.

Dr Joseph Hooker acknowledges the  
receipt of Polyptilae sent some  
time ago. I am tired of this  
rough overhauling which uses up my  
nervous energy & no time for special  
examination. I hope Sargent can  
raise some of the plants from seed  
sent

Yours truly

C. C. Parry
