

Dear Dr Gray San Diego Cal^a March 25th 1882
By mail 3. Boraginaceae recently collected
here viz 1. Harpagonella Palmeri not rare.

2 Echidnacactus Californicus Gr. one of the common weeds
3. Echinocactus prostratum Jones n.s.p? - or what?
We start next week for Lower California. hope to make a
good haul. Several nice plants turning up, yesterday in the
fore of Pinus Torreyana!

Leptozyme gigantea Kellogg must be reduced to var of
L. maritima. I have it in all forms - will send you a
stem nearly 1 inch thick! L. gigantea is only an insular variety
made vigorous by greater moisture & absence of frost.
I am looking for Micraspis in the Nemoclinia is
coming in nicely

Yours

C.C. Parry
