

Davenport April 14<sup>th</sup> 1884

Dear Dr Gray

I have copied your letter & sent it to Mr Shaw.

I enclose herewith ripe seed of Antennaria Canadensis fr I sent some years ago seed to V. L. Audubon & Co.

I am now busy gathering up things to take East on

I have been dipping into Erigeron lately, & have come to the conclusion that Nemacaulis must be taken in. It is identical in its characters with

E. angustifolius & the distinct bracteate involucre, and you say in description

of E. salicifolius Hook. "involucral leaves almost distinct" &c. A should come next to that. In renaming should be E. Nemacaulis, or Nemacaulis ?

In haste yours C. C. Parry

P.S. I have enjoyed room in "City of Rome" for June 14<sup>th</sup>

Parry, C. C. 1884. "Parry, C. C. Apr. 14, 1884." *Charles Christopher Parry letters to Asa Gray*
