Davenport, Iowa, May 23<sup>d</sup> 1886

Dear Watson

Will you please give me the marginal date of Pt XVIII. Biol Cent Am. — which would commence with page 377 Vol III. This number is missing with me and I want to see if it could have come during my absence.

I have now gone nearly over all my Progenum material. — I still lack the following desiderata, many of which are I suppose inaccessible. Whatever you can supply (even loose fragments) and especially fruit will be acceptable.

Very Resp. Desiderata.

|                            |                             |
|----------------------------|-----------------------------|
| 125 <i>E. acule</i>        | 140 <i>E. Lemmii</i>        |
| 127 <i>E. androsaceum</i>  | 141 <i>E. brachyphyllum</i> |
| 133 <i>E. brachypodum</i>  | 144 <i>E. longifolium</i>   |

| 135 <i>E. hookeri</i>      | 155 <i>E. Thompsonii</i>    |
| 155 <i>E. intricatum</i>   | 157 <i>E. Watsonii</i>      |
| 154 <i>E. Kell-eggei</i>   |                             |
| 161 <i>E. Kennedyi</i>     |                             |
| 162 <i>E. Kingii</i>       |                             |

Among other items I note as follows

Eragrum triste Watson = E. alatum Torr

E. crenulatum Parry ind = var E. angulosum

E. robustum Greene = E. Lobbi var

What you name in C R Orcutt's coll E. glandulosum Nutt "is  
near 'A' from Cuyamaca Mts = E. apiculatum Watson.

Why can you not come & see us for your outing  
this year. Your relation Mr S F Smith has one of the  
nicest residences in town and Prof Sheldon is also  
nearly fixed - all within reasonable walking distance  
of my herb. & Acad Scienc. ? We will try &  
trust you better than they did at Guadalupe.

Yours Truly

C. C. Parry
