

San Francisco Sept 12th/br

Dear Mr Watson

After nearly 2 years Sojourn. we are now about turning our face Eastward, will leave for Davenport Iowa 28th inst I have already packed and forwarded my bundles of hay to add to the old pile! Though tolerably active for an old man I have markedly confined my collection to specialties, giving the past season considerable attention to Ceanothus. of which I have considerable new material not yet communicated to Trelease. There are no doubt other things in my collection that will interest you. When I get time to sort up

and distribute.

It is doubtful if I get
as far East as Cambridge this
coming winter. How sad it will
be to find dear Dr Gray missing!

I suppose you have probably
sent your late publications to
my address at Davenport, which
I shall find all right on my
return otherwise will advise you

I have seen considerable of
fence and his vagaries or not
crossing his path I manage to
keep on friendly terms.

Lemmon & wife have a
selected position on the State Board
of Forestry and are now in the
field. Dr Anderson of St. Louis
accompanies us on our eastern
trip and I presume will just
in an appearance at Cambridge
this fall.

Palmer whom I have
not seen is at San Diego
restoring his collection from
Mt Whitney district has all
gone to Visey at Washington.
He sent me a few specimens
of a new? Arctostaphylos. which I
will study up later. He requests
me to send you one of the
3 specimen which I will do
when finished up.

Of course you keep busy
but if you can find time to
drop me a line last of
this month I shall be glad
to hear from you.

Yours truly
C.C. Parry

Parry, C. C. 1888. "Parry, C. C. Sept. 12, 1888 [to S. Watson]." *Charles Christopher Parry letters to Asa Gray*
