

MIDDLESEX SCIENTIFIC FIELD CLUB.

Medford, Mass., May, 23/81

Dear Mr. Watson

Thanks for all your kindness, but I am a little disappointed in the name of the Pedicularis. I was hoping that you would name it for the finder, if new. Miss Faribault will have done so much for the Maine flora when her work is completed - a work <sup>of</sup> <sup>cove</sup> carried on year after year with no thought of any return - that the dedication of this new species to her would have been a well merited compliment.

~~This~~ Is it too late or will you consider it impertinent for me to suggest such a change?

I will delay writing to her until I have your reply. Yours ever,

Henry David <sup>the</sup> <sup>old</sup> <sup>new</sup> <sup>name</sup>
