

SHEFFIELD SCIENTIFIC SCHOOL OF YALE COLLEGE,
New Haven, Connecticut. Feb. 26, 1875.

Dear Dr. Gray-

I have sold the two remaining sets of glass-weights plants. viz - Sets 9 & 10 of the Phrenograms, of 71 and 62 species respectively, to Mr. Bennett of Providence & to Dr. Rothrock. I enclose a check for \$ 13⁷⁵ to pay for them. This completes the business I suppose. If I am wrong please advise me.

I have been much troubled with rheumatism

This winter, but am now
pretty well again.

Our good neighbor and
friend, Mrs Hoppin, came
home a week ago, leaving
Benjamin well in Europe.
I suppose you may have
heard of her adventures,
but lest you have not I
will say, that she was
on the Deutschland, which
broke off all the flukes of
her propeller some 200 miles
S.E. of Newfoundland, & had
to put back under sail in
a fearful gale. The sails

were torn to shreds, & the
ship was at one time turned
side to the waves. The propeller
broke Jan. 18; on the 21st or 22^d
they signalled the Braunschweig,
but lost it again until four
days later, when it took
them in tow & brought them
into port at Southampton.

Four days later Mrs Hoppin
sailed again in the Neckar,
& came home safely.

Ever truly yours -

Daniel C. Eaton.
