

New Haven. April 23. 1847

My dear Watson.

Thanks -

The *Saurauca* has no
chaff on the receptacle, as
S. grandifolia is said to have,
& the description of the latter
does not fit the involueral scales
very well, nor the leaves as well
as it ought to do. So I shall
call Howell's plant new - &
name it *S. Americana*, as it
is so far the only peculiar American
species -

Yours very Truly

J. C. Eaton.
