

Silver City. Jan. 12. 1881

Dear Mr. Watson:

I must  
have sent you a specimen of  
my 308, which appears to me,  
after my careful study, to be  
of no published genus; evidently  
of Lepidostriacea in spite of the  
persistent holes of the raptorial!  
If it is new I shall rejoice in  
a chance of rewarding Mr. Crawford's  
generosity in bearing my expenses  
to & from those precious San Geronimo  
mountains, particularly as he  
is one of the finest gentlemen in  
the whole range of my acquaintance  
and one who will fully appreciate the  
hours consumed.

I still wait & long to hear from  
you.

As ever,

E. L. Greene.
