

California Academy of Sciences.

Post Office Box 2247.

San Francisco, Dec 4 1884

Dear Dr. Gray:-

Can you please compare at once, and tell me by post card, if this is your M. laciniatus. I take it for a var. of M. luteus, but

suspect it is not your M. laciniatus. Your M. rubellus parcel came last night. I will re-mail it to-morrow I hope.

The glandular hairy plant from Oregon + Washington to S. Cal, with rose colored flowers, first collected by Brewer, and with which two of your sheets are mostly filled is to be M. Breweri; and this was the main point I expected to make.

M. montioides must be restored, and yet another n. sp. will be made out of your "M. montioides flore parva" of which good specimens (which you have not) shall be sent you.

As Ever.

P. L. Greene.

Greene, Edward Lee. 1884. "Greene, Edward L. Dec. 4, 1884." *Edward Lee Greene letters to Asa Gray*
