

Berkely. Jan. 22. 1886.

Dear Dr. Gray.-

I have never seen an
Californian Specimen of Draba crassifolia.
Can you furnish me with one, or a
send me? You have collected it yourself,
above Yosemite, according to Bot. Cal.
I should also rejoice to have some fragments
of your D. eucarpa which also has
been obtained by a single collector only, namely
Brown.

Thank for Bot. Nomenclature for 1885, just
received.

Yours very truly
Edw. L. Greene.

P.S. Draba Douglasii is another desideratum!
