

and special acent california board of forestry:

Sakland, Cal. Mar. 25 1882

Sereno Wodson, My dear Dir, Just- fro Just- from very lone somewas and sorrow I write to get a line from old Horvard again. Of course we to not now expect quick returns from speamers sent as formerly when good Dr. Gray was at his desk, also, The editor of the Pacific Anal sont over & ask me for an obituary notice of the dear D. and I furnished it accondungly but in setting up the notter the sub-edition put the engraving of a big mody but in the middle of my article. sufficiel of course I could not send a copy of it to dear Mora Isray.

I write this to assure you that me

are not totally deproved over here, that some of us declared and published the gratitude and sorrow me felt, I believe the Cel, Hoad, published Their formal poper - but did not see it, dhe new regime is managed it seems. solely by Mrs Eurran, who is a Reen, designing, intriguing woman - so ittery say, he go in and out but are not on good terms with stom, Lately &r. Jarry was morted & pack up his moterials and sissecting tools & vacate, and jud now brog. Greene has had a querrel and gone out, Keally this last more surprises. us most of all, Now strong have not a bolanist left, - and but few others. The future of our Acad, is dock, but me hope the old monagers of Drd, Davidson and Harford mile not be restored, I new board must be found, with bet ter abilities and melhods than either. I'll take another sheet and conthe the informal chat.

As you see by the letter had I have been appointed to assist in our forest studies Mos Lo, is to point specimens of each species with moter below, he take the I'me for the season. the are full of enthusi ourse over the work but Alas! ile health may destrong all our hopes, Mara. Le, has been suffering for several meeks with irritation of the entire almentary canal and now is quite prosbated, with suflowed throat and pains in epery hart of the tract, Is a are employing the best medical skill attain. able, and may recover,

My rufes resolution does not fail, in fact her for it seeps her from totaing needed rest and recuperation, brele, The time is rife now for studying the flowers leave the berberin, When a change occurs I mill write zon. and I hope i mag muite og recovery & renewed laker. I enclose a later republissed copy of my a. may wish to have. with continued re. gards from ne both, Yours. Helsenmon.
