

Columbus, O 5th March 74

My dear Prof. Gray.

Lindberg writes that he should be glad to work and publish the Venezuela mones but that he cannot find time for that till Sept^r - Shall I send packbox & I do not know Lobb. but as one of the best living biologists. He may keep the mones perhaps for a long while. As they are interesting for science I should send them if they were my own, but I can not be answerable for a valuable collection which does not belong to me. I will send him my copy of the Cuban mones, which he desires to see. I have been so harassed by Hayden for his report and suffer so much from my old complaints neuralgia of the optic nerve, caused by ore work that I have not yet finished the description of the Tioum. Two weeks of time will put me through and I will have them from beginning of May. I wish to spend two months of the summer for more at Cambridge. I could then correct proofs at that time and spare you the trouble.
Your old friend respectfully. L. Dequerney

Can anyone in about that packbox where I may send now to
St. Louis? I must show you little & full want an authority for
sending away the mones if you are to it

Lesquereux, Léo. 1874. "Lesquereux, Léo Mar. 5, 1874." *Leo Lesquereux letters to Asa Gray*
