Mr. S. Watson Cambridge

Dear Sir

I am considerably discouraged because it appears that I cannot live decently here on twelve dollars a <sup>week</sup> ~~month~~ while the smaller sum answered perfectly well at Cambridge. I shall hunt up the man who got me this place on Sunday, and if he does not advise against it, and the firm is not disposed to pay living wages I think I shall write and

ask if you can give me the Ball job again in case you  
have not got anyone else for it. It makes a great  
difference with ones' peace of mind whether he gets five dollars  
a month more or less than just enough to live on, and  
I feel as if I had made too great a sacrifice in changing the  
wrong way merely for a chance of permanency. If I could  
see any way to follow up botany as an occupation I would drop  
chemistry altogether. I have sometimes thought that perhaps  
I could get a living as a collector in tropical and uncivilized  
countries. I will write again Sunday

care Rickette & Banks

Very truly yours  
John A. Allen
