

Mar. 27 1882

My Dear Sir

you could hardly have  
sent me a more interesting plant.  
(label enclosed) - It is to be compared  
with Wright's specimens from N. Mexico  
in herb. Gray, but has larger nuclei.

I have an article in type for the  
Am. Naturalist on the N. Am. varieties  
of this <sup>species</sup> plant - which I will send  
you as soon as it is published,  
with specimens -

Fasciculi 2 & 3 are nearly ready  
& will soon be forwarded you -

I wish you had "grabbed" a hundred  
or two of this plant - it is a nice  
form -

yours

J. F. Allen

To  
Prof. Watson

Allen, Timothy Field. 1882. "Allen, Timothy F. Mar. 27, 1882 [to S. Watson]." *Asa Gray correspondence*
