

Auburn, Cal.
Dec. 1st. 1891.

Dear Mr. Watson:-

Returning, after
a five weeks visit in
San José, I found
your kind note and
the determination of
plants awaiting me.

Arabis (36) I
found in our place.
Had not detected it
before till this Spring.
Linaria pumila, Gray.
is from Arizona, but

all the others except
the following I found
in or near Auburn.
Ranunculus alismifolius,
Geyer, Lake Tahoe.
Polemonium humile, Willd.
var. *pulchellum*, Summit.
Phacelia humilis, T. & G. "
Streptanthus campestris,
I fail to find among
my numbered specimens,
but it is undoubtedly
the one I have from near
Jona Hill - Placer Co. -
I remember that I
thought of sending it

because I could not
decide upon the species.
Lychnis lithospermum grow on
our place, and *Bidens*
frondosa in Auburn
Ravine.

Thanking you most
kindly, I remain
Sincerely yours,
Mary E. Pulsifer Ames.

Ames, Mary E. Pulsifer. 1891. "Ames, Mary E. Dec. 1, 1891 [to S. Watson]." *Asa Gray correspondence*
