

May 20 1886

My Dear Mr. Watson:

Thanks for your note on C. C.
aristata and Davisii Dew. It is my recollection that
Dewey described the plants as new species under
these names. My notes surely say so.

I will be obliged to you if you
will insert on p. 246 of my Mss. the page
and plate of Hook. F. & A. on which C.
Douglasii is described.

I send by express to you to-day the
Mss. for my Cares Synopsis. I am anxious to
get it into type as soon as I can. Of course
I must read the proof. As this Synopsis endeavor
is to account for all names which have been given
to American Cares, I must insist that an in-
dex accompany my contribution. I will submit
it with the corrected proof.

Please accept thanks for the aid
you have rendered in securing the publication of my
Mss.

Yours very truly,

D. C. Gray has the first 31 pp. of my Mss.
