

25, WILTON PLACE.
S.W.

Oct 8/73

My dear Gray

I sent for you to Wesley last week (addressed Herbarium Harvard University) a copy of the new volume of my *Flora Australasica*

When I received your of the 9th I answered immediately about the 16th for vol. XII of the *London Journal*. but now find there are other points I did not answer. I shall be very glad to receive what is due to you from Reeve & Co and pay any matters out of it besides what you owe me or remit the balance to you in any way you may direct

I think I understood Rippin that

you paid for the four copies of vol
XIII which is now complete - The first
2^d of vol XIV is printing. Do you stop
the copy that Torrey had or only
Sullivan's - and if Torrey's is still
to be sent I suppose it must be
to "Columbia College New York"
but it will not be sent unless you
give instructions.

In reply to the enclosure from Mr
Wright I must say that the authorship
of the names of new species ought to
have been more clearly expressed in
the title page or to each name - As it is
most people will take them as Dr
Hooker did to be Sawall's, he being
given as the author of the catalogue
and there being no intimation of
the diagnoses or descriptions of names
being Wright's. Inevitably will
be quite painful! A.S.

My *Lysionna* (*Acacia* group) *bahamensis* is the true
Minora latitigera due to which Shuttleworth correctly
referred Regel's specimens from Key West Florida and
becomes *Lysionna latitigera*.

Many thanks for the sheets you
sent - the latter ones we had already
the degumminous ones came just in
time. Our copy still wants

pp. 21-40

177-200

209-216

Are complete copies on sale anywhere?

The following are corrections to some
of Grisebach's ^{other} *Minoreas* from Cuba

- *Minora diplotricha* Wright = *M. invisa*
Most (*Schrankia brachycarpa* Deuth. sin.)
 - *Acacia tamarindifolia* Griseb. from W. I.,
Jordan = *Minora polyancistra* Deuth.
 - *Piptadenia stenadenia* Griseb. = *Dichrostachys*
mutans Deuth.
 - *Leucaena formosa* Griseb. = *Lysionna labicii* Auld
 - *Calliandra hystrix* } = *Rhacodolobium*
- *Rhacodolobium calliandraefolium* } *hystrix* Deuth.
 - *Calliandra revoluta* Griseb. = *Rhacodolobium*
obovale Deuth. (*Puya obovalis* A. Rich!)
 - *Lysionna Marshiana* Griseb. H. & A. W. I. but
is nothing but *Calliandra portoricensis*
- Yours very sincerely
George Bonpland

Bentham, George. 1873. "Bentham, George Oct. 8, 1873." *George Bentham letters to Asa Gray*
