

Respecting Prof. Thurber's
charge I do hardly know
what to say; but I will
give sometime, when
I have more leisure,
a full explanation.
I do not feel as if
I have wronged him in
the least.

Yours
most respectfully
Henry N. Bolander

San Francisco June 5th 66.

My dear Doctor, Yesterday
I received your favor of May
the 4th. I was indeed glad
to hear from you before we
start for the Sierras; for just
now we received order from
Prof. Whitney to start immedi-
ately. We are full of expectations.
You never spoke before to
me about Mrs. Schmitt.
I shall be happy to furnish
him Composites, but let
it if you please, be done
through you.
I have been in correspondence

with Dr. T. Müller of Mel-
bourne for sometime.
Last summer I sent him
4 xy feet box with specimens
and seeds via Sidney but
I have not heard anything
about it. With your books
arrived also a parcel of
specimens and seeds from
him. I shall write to him
however as soon as
possible in the manner
you say.

Reammulus hystriulus
I have plenty. I found it
also again at Round Valley
in the northwest corner
of Mendocino Co. this spring
In the dry regions every-
where I found also your
Aphanta chacta exilis

The enclosed seeds of it
are from Anderson Valley.

Allow me to offer
my most sincere
thanks for your Photo-
graphs.

I shall not fail to write
to Rev. Dr. Curtis of
Hillsboro

Your offer, respecting
that new genus, is
flattering in the highest
degree; I hope to be
successfull and there
may be yet a chance
left.

Bolander, Henry N. 1866. "Bolander, Henry N. June 5, 1866." *Henry Nicholas Bolander letters to Asa Gray*
