

# State Normal School.

Oshkosh, Wis., June 7 1876

Prof. Gray:

Sir:

I have found in abundance what I call Lycopodium tetracladum which in your botany you do not state as growing in Wis. A specimen I send you.

A Crucifer also I send which I can not entirely satisfactorily identify. It grows in abundance on somewhat elevated & dry soil.

A reply at your convenience will be thankfully received.

Yours &c  
W A Kellerman  
prof. Nat. Sci.
