

Boston, Mass., Feb, 7-79

Mrs Meyers

I think I can now say definitely that the Catalogue will be printed and that the price will be 50 cts a copy. The printer has promised to get it out as quickly as possible and I will advise you of its progress.

I have copied my note on Aspidium Bootlii and sent it to the Amer. Naturalist to be published in that Magazine as it is supplementary to my Spinalosum paper.

I must thank you again for interesting yourself to get so many names, I shall not forget it.

When I come to sort out

my remaining Societys Specimens I may be able to add something more to your collection. If you will send me a list of those you need I will see.

I shall esteem it as an honor to be connected with your Clubs in the manner you propose, and will be glad to be of any service to them that I can. But I fear that I shall not be able to visit Syracuse during the coming season.

I am obliged to be brief in writing tonight on account of me & my eyes being bad though I intended writing more at length.

I will advise you of the further progress of the Catalogue which seems now an as-

-sured success,
Believe me very truly
& Respectfully Yours
Geo. E. Davenport

Davenport, Geo. E. 1879. "Davenport, George E. Feb. 7, 1879 [to F.J. Myers]."
