

Ans Mch 30-79

MIDDLESEX SCIENTIFIC FIELD CLUB.

Malden, Mass., ¹⁵ Mch, 17 1879

Mrs. Meyers,

I will send you in a few days half a dozen sets, being all of the smaller sets that I have. The ferns are not named but you will recognize them. You can do just whatever you please with them and if they only yield one dollar a set I will be satisfied. If on examining them you think they are not worth your troubling yourself about, you can either return them to me at my expense or distribute them where they will be acceptable. I have eight of the larger sets of 100 specimens (50 ferns & 50 plants) remaining and in them the specimens are all named. I would dispose of them now for \$2.00 a set as I would like to get them out of my cabinet where they take up too much room.

I was pleased to hear that Mr

Cassius had made such a
generous atonement for his
fault. We are to have no
more of Emerton's work. He has
given it up on account of a situation
which he has obtained and
Mr. Fay's will finish the plates.
I think you will be pleased
with his work as he has
surprised those of us here who
did not know of his fine
caligraphical abilities.

I am confined to the house
today by a heavy cold, and
have been trying to answer a
few of the many letters that
have accumulated during the
past two weeks but my eye
will not permit me to do
much.

"Thanks for the copy of your
Constitution"

Very Respectfully
Geo. E. Davenport

I understand that Mr. Edwards
is intending to get out a new
edition of his "Check List" and perhaps
it will be better for me to leave
that to him. I will write him
shortly about it.

G. E. D.

Davenport, Geo. E. 1879. "Davenport, George E. Mar. 17, 1879 [to F.J. Myers]."
