

Cambridge

5 November, 1903

My dear Mr. Dane, -

The strange weed from Senecioidea which I showed you some time ago I have not yet had time to look up. My friend Moore, however, took some to the Gray Herbarium and Mr. Fernald calls it. *Mercurialis annua* (Euphorbiaceae) I had examined a Maine sheet of this plant but it was less complete and did not suggest to me this one. I am anxious to get home and examine mine. There was a great deal growing but we didn't gather very much.

Sincerely yours,

Wm. Brewster
Dr. Mrs. Stanley Rose.

Pease, Arthur Stanley. 1903. "Pease, Arthur Stanley Nov. 5, 1903." *Walter Deane correspondence*
