

Urbana, 12 December, 1912

Dear Mr. Drane:-

My mother's address, for which you ask, is Abbott Street, Andover, Massachusetts. I was glad to hear from you and learn of the DeVries party and the 3200 grass cards. Things here go on much as usual except that my work as Curator of the Museum takes a good deal more of my time than it did last year. Our whole family is very well and the baby flourishes most remarkably and daily grows in intelligence and interest. Of botanical news there is little here. The plants I gathered in Aug. and Sept. are all ready to be taken to Cambridge in the summer and compared and listed. There are 200-300 of them, I fancy. I am hoping for some further explanations re: summer in out-of-the-way parts of Conn. Co. An acquaintance of last summer wants to go through the Wild River ^{vally} with me and to take me through the Dry River vally, from Oakes' Gulf to its mouth. I also want to get a look into the Conn. Lake region again, in the late summer, if I can, as I have been there only in early July. I have thought of perhaps a little trip to Shelburne to climb Shelburne Mountain and Bald Cap Dome to see if they have anything of botanical interest. I may be able to combine them with my trip through the Wild R. vally. Give our kind regards to Mrs. D. and the Woodruffs.

As ever, A.S.P.

THIS SIDE OF CARD IS FOR ADDRESS ONLY

Mr. Mabel Deane

29, Brewster Street

Cambridge

Massachusetts

Pease, Arthur Stanley. 1912. "Pease, Arthur Stanley Dec. 12, 1912 [Postcard]."
