

better poised as to the Club's doing. We
had, for example, an account in the Spring
of the plan for field days to build up
the Club building, but I have neither
heard nor seen any report of what
success was attained or how much
was acquired for the building.

Dear Mr. Pease:-

Many thanks to Mr. Pease and

you for your kind Christmas card with ex-
pression also of our admiration of the
skillful cartoon which it contained.

I trust that your Christmas was a
pleasant one and that the New Year

now be full of happiness.

Stella and the baby sit before the
open fire as I write the farmer coming
and picking her legs and waving her
arms in a very happy manner. She has
been extremely well and well behaved
all the time she has been in this world
and daily gains some new accomplish-
ment and greater interest in things
about her.

Please remember us kindly to the

Children and give them our best wishes. I wish
I might stop in at the January meeting of the Class
and see its members. I wrote M. J. F. some time ago
that I wished that they might be a vessel going
in Phantom one around of great interest as the
meeting, both members of about Newton. I
think if it were possible that it might furnish
a good deal of interest and certainly help us
over this stretch the 20 mile divide to keep
