

Urbana

26 September, 1915

Dear Mr. Deane:-

Your experience with Apoc. tuberosa is what I should have expected, I think. I can't recall seeing fruit on it. Gypso-  
phila muralis we have had once or twice only; not in such abundance as for instance. Next spring I shall hope to look over your plants, if I may. I had a comfortable journey here. In

Berlin I stopped and got some of that Polygonum (I showed it to you in a sterile state). It appears to be P. ramosissimum forma atlanticum, answering exactly to the description of it in the Manual. I had your leave that H. H. Barkett has left the Dept. of Agr. and become ass. Prof. of Botany at the Univ. of Michigan? I was told so yesterday. Give my best regards to Mr. Deane and Miss Brown, and to Mr. Spangue if he is still there.  
A.S.P.

THIS SIDE OF CARD IS FOR ADDRESS

Mr. Walter Drane

Shelburne

Vt. H.

Pease, Arthur Stanley. 1915. "Pease, Arthur Stanley Sep. 26, 1915 [Postcard]."
