

good things: Cephaelis capillaris, Stuckers tenuif. v. aspera, Carex Tuckermanni, an Asis of the late flowers
Swamp, Drishlenbyia mexicana, etc. - Others yet to be worked up. With Arborea, 29 September, 1919
best wishes, A.S.P.

Dear Mr. Drane: -

Just a line to let you know of my safe arrival and to answer
your card of the 16th. I had a very short stay at the Herbarium (shorter
than I had planned, on account of having to take an earlier train) and so
could not do more than get some of my plants ready to leave to be mounted.
I didn't begin to get worked up some of the more interesting collections of the sum-
mer. Consequently I must report that I didn't get as far as ~~tabulating~~ going through
yours. I shall hope to do better next year, and perhaps stop on my way East. One
good thing, however, I did happen upon, and that was meeting Glom Allen
who suggested the possibility that the B.S.N.H. might perhaps like to publish the flora
of Coös County. That will be a possibility to be well considered, and it might make it
possible to publish it in the near future than I had feared. I wish M.H.F.
or Brainerd might have a chance to visit your Rubus etc I see it. Dr. Tuckerman
has been at Gates Cottage (and may still be there); also, I think, Mrs. Bates. I was
sorry not to see more of you this summer, but we had a good deal of company which kept
us rather closely occupied. I made a trip as far as Pittsburg and 1st Lake, and got some
