

x = none in my herb. or Coll. Hb. U. Ver.-a, 10 Jan., 1923

Dear Mr. Deane: -

In Appalachia, 3 (1883), 242 Professor Farlow mentions

1 x Andromeda ligustrina from Shelburne (I think as the best for some
2 x. { Sumner's Falls, N.H.) the same town.
cryptogam), and on p. 247 Equisetum variegatum, from the same town.
Again on p. 251 he notes both 3 Hudria glabella and 4 x W. hyperborea
from the Alpine Cascade - I have found traces of only the former. The
5 x grad. of N. H. 1,410 cites Zozania from the Andros Coffin R. in N. H.
Have you any trace of any of them? I have no note of them
from your herb. and shall probably have to list them as spp.
exclusae, though the Androm. ligustrina grows very near our limits in
western Maine.

With all best regards,

3. Rock Alpine Cascade Aug. 6. /884. W.D.
A. S. P.

THIS SIDE OF CARD IS FOR ADDRESS

Mr. Walter Dean
29, Brewster Street
Cambridge
Massachusetts

Pease, Arthur Stanley. 1923. "Pease, Arthur Stanley Jan. 10, 1923 [Postcard]."
